

Minutes of the Steering Committee meeting of the
Northern California GeoMedia User's Group

May 23, 2002 10:00 – 12:00 am
City of Danville – Magee House – Hap Magee Ranch Park

Attendees:

Alan Rich, Jeff Fiore, Jeff Hobbs, Eric Bayer, Robert Yoha, Rene Collins, Jill

Meeting begins at 10:15

Discussion of User Survey

How can we get a better response?

- Alan proposed the idea of breaking up the list of 110 GM users and calling them.
- Eric proposes slanting the e-mail to a personal level ... "Tell us how we can help you."
- Promote the idea that "It will take five minutes"
- Try Imposing a Deadline
- Robert thinks we can tap a larger audience via some other GIS forums
- Hobbs suggests having Eric/Robert other people pushing the survey
- Cater the Meetings to a wider audience – balanced presentation

The group took some time to revise the survey. The new questions will be integrated to the online survey so that it can be re-administered.

We're removing the IGUC registration requirement for taking the survey.

Discussion of Next Meeting

Tentative date: June 26 or July 10

Location GENE

Computers GENE

Topic: Web Map

Speakers 90 minutes:

Intro: 20 min - These are the products and what they do (Jeff Fiore/Gene) Take questions
