

Eric was going to confirm a meeting site with the City of Livermore for March 17th. The alternate site would be Milpitas if needed.

I believe that Eric was also going to arrange all of the speakers

The agenda would be as follows:

15 minutes - Product update by Intergraph

25 minutes - Patrick Crevelt - How to Load Imagery into GeoMedia using ISRU tools

25 minutes - Adam Lodge - Pavement Management Integration Part 1

25 minutes - John Jackson - Utilization of Webmap for Multi-discipline Reporting

25 minutes - Unknown - GeoMedia at the City of Livermore

Workshops:

Adam Lodge - Populating an Asset Management Database in GeoMedia using Spatial Queries

Alan Rich - Rezoning Notification and Mailing Label Generation using GeoMedia

Alternate - Using ISRU Tools in GeoMedia

Other topics and Workshops discussed as alternates:

Data Warehousing Tools

Map Text

More Image Tools

Using Oracle Pres? (EDL) Effective Date & Lineage - Sorry, couldn't read my own notes on this one

Street Splitting at Jurisdiction Boundaries

Using an Intergraph Spatial Enabled Database for Multi-Agency Inter-operability

Finding Duplicate Street Light Numbers workflow.

We also discussed having the June 25th meeting in Milpitas, so that we could have a barbecue.
